

Fanzara

Guía Turística

Fanzara conquers us with its privileged views of the Mijares valley from the top of the **Holy Sepulchre**, with the ornaments and constructions of the **old church** located in the church square.

It invites us to enjoy fresh and crystalline waters in its **rivers** and hidden **pools**.

Fanzara allows us to stop time in the old washing place, streets and alleys, where each corner hides a story.

It gives us time to lose ourselves along its authentic nature **trails**, to discover the wonders that its lands contain.

Each path, road, river, mountain or **cave** whispers to us ancient legends and **stories**

Fanzara has reinvented her own future.

A commitment to survival and art, becoming the **world capital of graffiti**.

Artists from all over the world participate in each edition, creating a **unique museum**.

Let yourself be guided by the purring of the streets and corners, to discover a living and unprecedented work of art.
